

Printable US, UK and International Ring Sizer Tool and Chart

1. Follow the Adobe Printing Instructions on the Etsy listing or in the, Print Instructions.pdf, to ensure proper scaling.
2. Cut out ring sizer tool and cut a slot in the middle of the tool at the dashed line. (Do not cut all the way across!)
3. Insert the bottom end of the ring sizer tool into the slot to make a ring.
4. Wrap the ring around the desired finger and measure to the **Green Line**. Fit should be snug around your finger.
5. Tip: If you're between sizes, we recommend sizing down for a snugger fit or sizing up for more comfort.
6. If you have a ring to compare with, lay on the chart below and line up the inside of your ring to the inside of a ring on the chart below, select the closest match.
